

Angel's Serenity

Past Life Regression

This group session will bring understanding of altered states of consciousness and balancing your chakras. Terri will guide the group on a journey of self-discovery in this 2 workshop; which allows the participants a valuable experience of connecting with their 'Higher Self', receiving answers from long ago forgotten memories. Learn to understand the direct connection to your past lives and present behavior, which are our soul lessons. This information can free us from repeating negative patterns and bring deep healing. You will also glean information about those significant people in your life, which can free us from guilt or unhappiness in relationships. Understanding your Akashic records (your eternal diary) and how to work with this information can be enlightening and rewarding. You also learn how to clear your subtle body which can hold negative energy patterns from past lives, which we prepare by clearing and balancing the Chakras at the start of session.

People have had many experiences from past lives and developed talents and abilities, which are available once we understand how to connect with them.

Through altered states in past life regression, we can go back to when we were planning our present life and rediscover our life purpose.
